

Rust Automation & Controls Inc - Linking Products to Applications

Expanded Fluid Power & Factory Application Capabilities

NEW

NEW

Numatics is a leading manufacturer of pneumatics and motion control products. Numatics has an extensive history of generating innovative concepts and technological breakthroughs.

ASCO is the worldwide leader in the design and manufacture of quality solenoid valves. ASCO products are designed to control the flow of air, gas, water, oil and steam.

Pressure Gauges, Pressure and Temperature Switches, Thermometers and Thermowells, Pressure Transducers and Transmitters, Diaphragm Chemical Seals and Capillary Lines, Test Equipment, Accessories.

Pressure Regulators, Relief/Back Pressure Regulators for Gas, Liquids, and Steam, Control Valves, Controllers & Vapor Blanketing and Recovery Control Systems.

DelTech Controls presents a range of world-class flow control valves and valve automation products produced with one simple goal in mind, "Customer Benefit".

FLEXIM provides process instrumentation solutions for all branches of industry. FLEXIM has become known for its cutting edge engineering and high quality ultrasonic flowmeters.

For process applications that require high-performance measurement of pressure, temperature, flow, level and analytical variables, Foxboro and Foxboro-Eckardt Field Devices offer high accuracy, long-term stability and field-proven robustness in the toughest applications.

ITT Engineered Valves is a leader in technology, innovation and design and is capable of meeting the critical needs of its customers on a worldwide basis.

Established in 1974, Precision Digital Corporation is a manufacturer of a comprehensive line of digital display and control instrumentation utilized in industrial processes worldwide. We design and manufacture products to exacting standards.

RF pinch valves use advanced technology and the highest standards in design and materials of construction and provide the longest sleeve life. They meet the most rigorous service conditions.

As the third largest producer of control valves in the world, Samson's field of expertise extends through chemical plants and refineries, heating and air-conditioning technology.

The World Leader in LEVEL Instrumentation: Radar, Ultra-Sonic, Guided Wave, Nuclear Density, Capacitance, Hydrostatics including a complete offering of Point Switches.

Proudly Serving the Western United States Since 1976

Represented Manufacturers

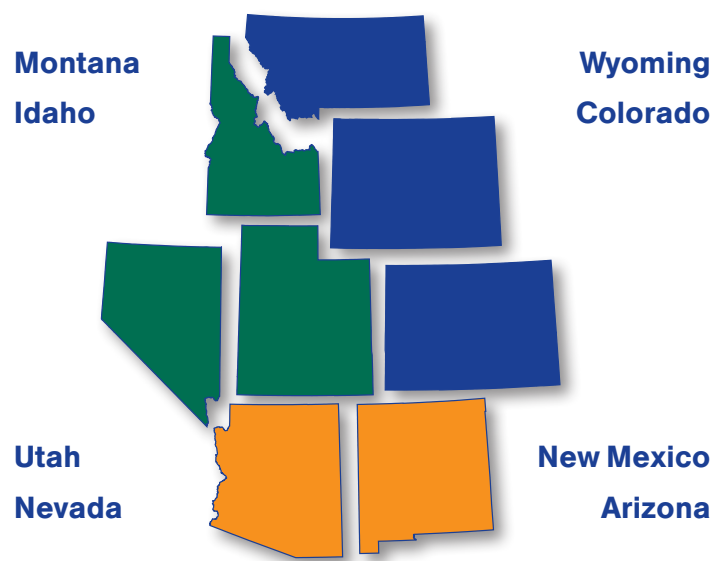

Since 1976 Rust Automation & Controls has represented the world's finest products for all types of industrial applications where quality, reliability and durability are of prime concern.

Our skilled application engineers and sales technicians provide a comprehensive range of services and support functions from needs assessment through training, implementation, installation, diagnostic analysis and repair.

Rust Automation & Controls Inc provides solutions to all industries in the Mountain West region of the U.S. and beyond. Simply contact us and we will be more than happy to assist you with your applications.

Rust Automation & Controls is your solution for Level, Pressure, Flow, Temperature, Valving, Analytical, Industrial Wireless, Explosion Protection, and in-plant Communication.

- Eastern Market
- Southern Market
- North West Market

Also serving the western portions of Nebraska, North & South Dakota
NEW - Now Servicing El Paso, TX
