

AUTOMATION & CONTROLS INC.

Job Title:

Industrial Systems Sales Support Intern

Pay Rate:

\$12-\$15/hr dependent upon experience

Job Description:

Rust Automation and Controls is seeking a part-time intern with our industrial systems division. This internship would be responsible for requests for quotations, systems orders, coordinating with other departments for quotations, and handling purchase orders, as well as obtaining lead times for our customers. Also, he or she would help with some design work in Microsoft Visio and Solid Works Electrical along with configuring PLC layouts and understanding the different hardware requirements. Must have the ability to learn to mount, assemble, wire, and test electro-mechanical components such as power supplies, PLC's, and instrumentation.

Requirements:

- High school diploma or equivalent
- Current college student

Please send your resume to hr@rustco.com with the position title in the subject of the email.
